Sir

In the Kirinda Ganiat attached to Kellanwegala village in the Kacaie Pattu of the Kurunegal Talut survey No: 0 measuring 1164 acres and 30 guntas in extent is set a part as gonal for the village. This no: contains a breached Katte which has gone out of use for several years. There is in fact no trace of the Katé except the remains of a short bund, a few years long. One Ahatare Ranimal who holds lands situated below the Katé has now applied for permission to restore it at his own cost (Rs: 500) with the

intention of deriving irrigation for about 10 acres of land. He seeks for the usual exception of deduction of 1/4 out agreement on the lands to be irrigated.

2. The Auditor has inspected the plot and is of opinion that it is unremunerative for Government to undertake the restoration of the tank. The work will not in any way interfere with the supply of water to tank below. The villagers have no objection to the said Ramaiah application being granted. The applicant has agreed to pay the value of the small wood on the land estimated at Rs/-

3. Under these circumstances I beg to request that sanction may be accorded to Ramaiah

application with the concession sought by him.

4. A statement in the prescribed form for the alienation of 1½ acres of Jowal land for the proposed Katté together with the record of the case is herewith submitted for sanction.

To,

The Secretary to the
Government of Mysore

Sir,

In returning correspondences received with your Docket No. 11119 / R 4365 dated 23rd Instant I have the honor to observe that the case upon which my opinion is asked for appears to come under Appendix F of the Land Revenue Rules, under Para 3

of

being the wet rate fixed by the Survey on the actual land under the Katte. The average wet rate in the village might be very inappropriate for a small Katte like that now under reference. A Shraya a progressive rate will entail far less trouble in the accounts and collection than a remission of 1/4 of the wet assessment. The terms of the Shraya might be made liberal.

of which a remission of ¼ of the net assessment of such lands as may be converted into cattle under the Rules in question, can be granted. It is also obligatory to Government to fix a "sliding" or progressive rate the maximum being the average rate on the village or Taluk. The average rate thus laid down is vague. I would suggest a "sliding" or progressive rate the maximum being
